EDUCATION

University of Nevada, Las Vegas - *B.S. in Computer Science*

August 2014 - May 2020

- To graduate with a Bachelor of Science in Computer Science to learn complex and efficient algorithms to solve problems. Additionally, to expand knowledge about Data Science and Software Engineering.

SIDE PROJECTS

Website Portfolio

- A website portfolio to store and to update all the side projects created.

Munchi

- Assessed UX and UI designs for technical feasibility.
- Story telling the workflow to the team for our application.

Skills:

Python	MATLAB	Jupyter
R	SQL	TensorFlow

Knowledge in:

Data Visualization	Data Analysis	Prediction Analytics

EXPERIENCE

Terbine, Las Vegas, NV - *IoT Data Searcher*

July 2019 - March 2020

- Use deep Web searching and customized tools to seek out open source machine-generated/sensor data from different sources.
- Create highly descriptive metadata and submit them for entry into the Terbine system.
- Used R to split datasets for required metadata.
